

A: The story

Project name:	Young filmmakers
Responsible organization and person(s):	Scout group "Miroslav Mika Antić" Tanja Janković, project Coordinator
Introduction to the project:	<p>This project has been initiated by scouts in our group because they want to make their own video that they can put on youtube but to be well presented and has a good reach.</p> <ul style="list-style-type: none"> • Young people are very interested in making selfy video and publishing on youtube and social networks but without awareness of picture that they send in public and risks • Our scout group and Scout Association of Serbia has a problem to get into media. Politic topics are on the main news. Also our activities that are in the woods and during weekends are hard to be followed by journalist. Video that we produce now with the phones is not good enough quality to be broadcasted on TV. • Young people have very little opportunity to explore their talents in filming area
Objectives and goals:	<ul style="list-style-type: none"> ➤ Introduce young people with basic terms and roles involved in making film ➤ Increase awareness of sending message through the film ➤ Develop basic skills for writing scenario, handling camera, directing, make a scene and filming plan, editing ➤ Make a promoting movie ➤ Fulfil requests for scout badge cinematographer ➤ Increase membership of scout organization
To which extent did we meet objectives and goals:	<p>We are very satisfied with the results of the project. Participated more than 30 scouts (around 50) in the projects. All planned activities were held:</p> <ul style="list-style-type: none"> ➤ Workshop on International short film festival "Filmski front" held 28.10.2017. in Culture centre of Novi Sad. Workshop was mentoring by film director from „Kino klub Novi Sad"- Cinema club, about basic terms of film language, work phase on film, sector roles in producing film. Participated 20 members of our scout group and around 10 non scouts. All of them got diploma. ➤ During November and December we had two meetings about organizing winter camp, the main activity of the project. Camp was

	<p>held from 2-6.January 2018. in a mountain house in Fruska gora, 30km from Novi Sad. There were 46 participants both from Scout group „Miroslav Mika Antic“, Novi Sad and „Javor“, Belgrade, learning about making scenario. Participants were writing scenario with the recommended elements, divided in groups. It was explained how to send a message through the film. After presentation of the group scenarios we delivered one that was meant to be filmed. People from „Kino klub Novi Sad“ have chosen, among participants, assistant director, camera assistants, best boy, sound assistant, production designer, decorators, costume designers, clapper, scripter etc. Youngsters were making costume for the bear, looking for the adequate place for shooting and all needed props. They were managing camera and sound recorder, taking care about the sequences of the scenes. The most interesting was casting for the actors. There were many candidates. Postproduction of the film was few weeks later because in the camp there was no time for it. We borrowed the equipment from „Kino klub“ since at that time we were not able to buy it. Money for the equipment came later and we bought it.</p> <ul style="list-style-type: none"> ➤ We got a laptop as a donation. ➤ Celebration of the project held in the cinema where was the premiere of the recorded film “Mila and the Bear”. The whole film crew was presented, got diplomas and cheers from the audience. After that, there was a celebration with the cake. ➤ Evaluation has done during the project by reports on the meeting in preparation phase, by sending follow up report to the FOSE, collecting impressions of the participants. Promotion of the project was by facebook page of the scout group- OIMIKAANTIC, Instagram and regional newspapers. Film is on youtube. https://www.youtube.com/watch?v=n5P9FJJ7Yeg ➤ Long term goal to have more scouts will be followed.
<p>What did we learn from the project:</p>	<p>We learned that if the project comes from youngsters needs, involves them into preparation and presentation and is realistic, always finds the donators and helpers. Participants learned basics about the making film, manipulating film equipment, working in team, some of them overcame fear of public appearance. Besides shooting the film participants had an opportunity to explore nature, do some sports, help in the kitchen, organize and participate in the fun games.</p> <p>With this project we offered children to try something new, to discover their talents but there is a lot more to become experts in film production. Experience shows that this kind of projects should be done in smaller groups.</p>
