### A: The story

Project name:	The Integration of Minority with Majority and Education of Roma Scouts
Responsible organization and person(s):	Slovenský skauting, o.z. Simona Jursíková
Introduction to the project:	The project was build on integration and support of Roma scouts. Via non-formal education we tried to bring to small roma- scout groups in the East of Slovakia opportunity to learn, have an impact to community or show them how they could spend their free time meaningfully. Via activities with scouts from majority to eliminate prejudices and build friendships.
Objectives and goals:	<ul style="list-style-type: none"> <li>- Supporting the integration of minority scouts with majority scouts in Scouting Slovakia and education of Roma scouts</li> <li>- Present Roma culture and eliminate prejudices about Roma minority</li> <li>- Expand to a new locations and get new members</li> <li>- Educate Roma leaders how to create higher quality programme in their groups</li> </ul>
To which extent did we meet objectives and goals:	Because of the difficult situation, we could not affect, we met with projects objectives just partly. From the begging of the year 2019 to summer 2019. This period of year was full of activities in spite of the situation. For example participation in Czech national educative workshop, weekend in Banská Štiavnica, summer camp, local activities, and two educative workshops organized by Roma scouts what is incredible. But what is important of all, projects goals as get new members, educate Roma leaders how to create higher quality programme, find a space where they could do local activities, support critical thinking and new skills was fully successful.
What did we learn from the project:	To invest time to non-formal education, spend time with the people from the minority, try to give them education, opportunity to learn something new and get new skills is always a good idea. With activities on a regular basis and give responsibility to Roma scouts, you can see how they are moving forward.
