

ESF report

As you received a grant from European Scout Foundation for your projects, we need a report. Because this report will be aimed at presenting results to our donors, as well as publishing the story on our website, we ask you to prepare the report according to the structure described. When we have received your report, we may pose questions or ask for further details, so please be brief, and feel welcome to add more extensive material, press clippings, pictures etc. as addendum

The report shall include two parts: A: a description – the story, and B: a brief financial report.

A: The story

Project name:	eXplorer
Responsible organization and person(s):	Cercetașii României NSO, Cabana Scout Scout Group, Florin Tomozei (responsible person)
Introduction to the project:	<p>This project aims to create a platform dedicated to scouts, which transfers certain scout elements to the online environment and to create a virtual scout framework for the development of processes, such as: participation in certain events, monitoring badges and personal progress of scouts, card payment of the fee, etc.</p> <p>As part of the strategic project that consists in facilitating access to information, we want, with the help of the application, the entire process of registration for events and payment to be significantly simplified. In addition, the application will include a section where the scout can track and check any requirements to meet to earn a badge of merit or progress, in real time. This helps us to ensure that the exact requirements are taken into account in order to obtain badges. In order to increase interest in innovative projects and motivate scouts to get out of their comfort zone, the application will contain a section where they can share experiences, ideas, curiosities they have encountered working on a project, hoping that this will increase the appetite of scouts to develop new projects that help the community.</p>
Objectives and goals:	The main objective of this project is giving all of the national camps regarding explorers a platform in order to make both participants and organisers' lives easier. We wish to encourage explorers to become more interested in taking part in such camps, and we hope to see a significant improvement thanks to this platform. Another thing we are hoping to achieve is helping explorers find out more about other patrols' projects, inspiration that is bound to make helping each other easier.
To which extent did we meet objectives and goals:	<p>The purpose of the web application membri.scout.ro is to ensure the registration and monitoring of members' data and activities within the organization and also to streamline the work of organizing leaders in the Local Center.</p> <p>In creating such a large-scale platform, we realized that more elements of detail are needed to create the ideal framework for scouts.</p>

	<p>1. Administration of merit and progress badges: badges are awarded by accessing the profile of the selected member -> Update -> Badges -> Add Badge;</p> <p>At this time, badges can only be administered by those who act as local moderators. We intend to create the leading role in the next period to facilitate access to the awarding of badges.</p> <p>The new application allows the moderators of the Local Center to add and display the scout badges to each member. The badges symbolize the personal educational progress of the scout and they can be added by a moderator for each member of the unit to which he belongs.</p> <p>Thus, we can view / monitor the progress of the scout by entering his profile in the Badges menu.</p> <p>2. For more efficient communication, the new application is structured in Groups, giving each group the opportunity to add separate discussions, events and files:</p> <ul style="list-style-type: none"> • role groups (currently Adults ONCR, CCL) • the group of the Local Center, of the unit, of the patrol • private groups and projects (can be created by anyone, and members added manually) <p>3. You can create events for the Adult Group, Local Center Group, Role Group, and New Groups.</p> <p>Also, the payment with the card through the application is in the process of being launched, being already prepared.</p> <p>The platform is also available as a mobile application on the Google Playstore and so far has the following functions:</p> <ul style="list-style-type: none"> - Discussions - Members - Profile - Push Notification - Creating groups / projects & members add / remove <p>Next we aim to create for the mobile application these functions:</p> <ul style="list-style-type: none"> - events - files - one2one discussion - badge management
<p>What did we learn from the project:</p>	<p>We learned:</p> <ul style="list-style-type: none"> - good and long-term things need time and caution to be accomplished - the importance and necessity of such a platform for scouts - communication is an important element within the team, as well as commitment - scouts can be creative - maintaining energy from the beginning of the project

B: Financial report in brief

		Brief description	Amount in EURO
Income:	Own resources:		
	Other funding:		
	ESF funding:		
	Other income:		
Expenses;	server for hosting the site		412.902
	web platform		205.424
Net result:
